BELOW AND ABOVE GROUND TANKS

Above Ground Tanks come in 6 sizes:

SIZE	TYPICAL USE	SIZE	TYPICAL USE
A. 24 Gal.	Cooking	D. 320 Gal.	All use
B. 48 Gal.	Cooking, Drying, Fireplace	E. 500 Gal.	All use
C. 100 Gal.	Heat & Hot Water	F. 1000 Gal.	All use

Below Ground Tanks:

For underground installations, we may use a 1,000, 500 or a 320 gallon tank, depending on your usage. Attached to any underground tank there would be a cathodic anode bag that helps protect the tank against corrosion. With this bag the tank can last a long underground life and it is extremely safe.

320 GAL

500 GAL

1000 GAL
